INTERNATIONAL INC.

Re | flect  
*perfection*

featuring *Sculptures* compression wear<sup>®</sup>

As Medico International Inc.® closes in on 35 years of providing post-op compression garments to the plastic surgery industry, we can't help but take a second to sit back and reflect upon that accomplishment...35 years. That is 35 years of updated cosmetic procedures, advanced medical technologies, new developments in fabric and garment design enhancements. A lot has changed.

Yet, some things never change. We still design and manufacture our own garments. We continue to work hand in hand with leading plastic surgeons to deliver what they truly want:

- High quality, durable post-op garments that provide comfortable compression and contribute to optimum healing
- Same day shipping
- Knowledgeable, friendly customer service

In addition to garments, we offer medical grade Sculptures Liposuction Foam®, customized cold therapy and consultation supplies. All are designed to enrich and personalize your patients' post-surgical experience. We offer our products at a fair price - this will never change.

We stand behind our products, and we have for 35 years. We don't want you to worry about your patients' garments – that's our job. We are happy to help with sizing, drop ship to a patient or anything else you need – just give us a call. Together we can help your patients Reflect Perfection.

SC-25

Uninterrupted  
front &  
back coverage

Hook & eye adjustable  
shoulder straps

Hook & eye beneath a  
fully separating  
side zipper closure

Reclosable hook & eye crotch

## SC-25 Abdominoplasty Body Shaper (Side Zipper)

Designed by a female plastic surgeon and made with our ultra-comfortable Sateen fabric, this garment is ideal for use following breast lifts and augmentations, abdominoplasty procedures and liposuction of the abdomen and back. Hook & eye closure beneath a single side zipper allows for easy application and a fully contoured fit. Reinforced outside seams, adjustable shoulder straps and a reclosable hook & eye crotch provide support, compression and full accessibility. By design, the SC-25 completely opens so staff can easily “roll” patients into the garments.

**Sizes: XS - 3X\* Color: Beige, Black**

*\*3X available in Black only*

## SC-25F Abdominoplasty Body Shaper (Front Zipper)

Ideal for immediate use following breast lifts, breast augmentations, abdominoplasty and liposuction of the abdomen, hips and back. Provides moderate support to the breasts and uniform, uninterrupted compression to the flanks and upper and lower back. Made with Sateen fabric, this garment features a single front zipper, reinforced outside seams and a reclosable Velcro® crotch for added convenience.

**Sizes: XS - 2X    Color: Black**

SC-255

SC-250

**SC-250 Above the Knee Body Shaper**  
**SC-255 Below the Knee Body Shaper**

Ideal for use following breast lifts and augmentations, abdominoplasty procedures and liposuction of the abdomen, back, flanks and lower body. Designed using Body Scan technology and made with our ultra-compressive Sateen fabric, these garments feature hook & eye closure beneath a single, side zipper for easy application. A built-in bra with adjustable shoulder straps, reinforced outside seams and an open crotch deliver support, uniform compression and accessibility and contribute to a fully contoured fit.

**SC-250 Sizes: XS - 3X \* Color: Beige, Black**

**SC-255 Sizes: XS - 3X Color: Black**

*\*3X available in Black only*

*Petites sizes available in both above and below the knee, Black only. Ideal for patients 5'3" and under.*

Hook & eye beneath side zipper closure

**SC-26 Abdominoplasty Body Shaper with Sleeves**  
**SC-260 Above the Knee Body Shaper with Sleeves**  
**SC-265 Below the Knee Body Shaper with Sleeves**

Made with our compressive Sateen fabric, these garments are ideal for use following liposuction of the upper and lower body. These styles feature hook & eye beneath a single front zipper and a seam on top of the sleeve to avoid interference with the surgical site. The SC-26 has a reclosable hook & eye crotch, whereas the SC-260 and SC-265 feature open crotches for increased convenience and accessibility.

**Sizes: XS – 2X      Color: Black**

# Re | cover *with ease*

## SC-31 High Back Abdominoplasty Girdle

Made with our Sateen fabric that is the ultimate combination of compression and comfort. Features triple row hook & eye front closure for maximum adjustability and easy application. "Z" hook adjustable shoulder straps and a reclosable crotch provide added convenience. By design, the SC-31 can fully open so you can easily "roll" patients into the garment.

**Sizes: XS - 2X    Color: Beige, Black**

SC-31

## SC-200 Abdominoplasty Girdle

Ideal for immediate use following abdominoplasty and liposuction of the abdomen and flanks. Made with our ultra-comfortable Sateen material to provide uniform compression. Features a plush 4" anti-roll waistband, a flap-over cotton crotch with Velcro® closure, a front reinforcement panel, as well as bilateral full-length hook & eye beneath separating zippers for easy application.

**Sizes: XS - 6X Color: Beige, Black\***

*\*4X - 6X only available in Beige.*

### SC-240 Strapped Above the Knee Girdle

### SC-245 Strapped Below the Knee Girdle

Made with our ultra-comfortable Sateen fabric, these garments feature an open bust, adjustable, detachable shoulder straps and a front reinforcement panel that extends to the upper torso, making them ideal for use following abdominoplasty and liposuction of the abdomen and lower body. Hook & eye beneath bilateral zipper closure, an open crotch and reinforced outside seams deliver a contoured fit. The Strapped Above the Knee Girdle (SC-240) features fully separating zippers, whereas the Strapped Below the Knee Girdle (SC-245) features non-separating zippers for a more compressive fit around the knees.

**Sizes: XS - 4X\* Color: Beige, Black**

*\*SC-240 girdles are also available in sizes 5X and 6X in Beige.*

SC-240

SC-245

### SC-218 Stage 1 Thigh Lift Ankle Length Girdle

By having seams purposely placed away from the traditional inner thigh inseam, the SC-218 is specifically designed to accommodate thigh lift procedures. Features enhanced thigh compression, a low profile 2" anti-roll waistband and an open crotch for added convenience. Made with SuperSilky fabric.

**Sizes: XS - 3X Color: Black**

### SC-310 High Back Above the Knee Girdle

Full back coverage and an open chest design make this garment ideal for use following breast surgeries, abdominoplasty procedures and liposuction of the upper and lower back, the full abdomen, thighs and hips. Features adjustable slide shoulder straps with a "Z" hook attachment for easy application and post-op inspection, an open crotch, reinforced outside seams and full-length bilateral hook & eye beneath separating zippers. Made with our compressive, yet breathable SuperSilky material.

SC-270

**SC-27 Stage 2 Abdominoplasty Body Shaper**  
**SC-270 Stage 2 Above the Knee Body Shaper**  
**SC-275 Stage 2 Below the Knee Body Shaper**

Designed for use during the extended recovery process, Stage 2 Body Shapers provide continued healing support following breast surgeries, abdominoplasty and liposuction of the upper and lower back, the full abdomen and the thighs. These garments easily pull on and feature adjustable slide shoulder straps with a “Z” hook attachment for convenient application and post-op inspection. The Stage 2 Abdominoplasty Body Shaper (SC-27) features a hook & eye reclosable crotch. The Stage 2 Above the Knee Body Shaper (SC-270) features an open crotch. Made with our SuperSilky fabric for an even, contoured fit.

SC-285

- SC-28** Stage 2 Boy Short Girdle
- SC-280** Stage 2 Above the Knee Girdle
- SC-285** Stage 2 Below the Knee Girdle

Sculptures Stage 2 Girdles provide continued post-op compression and support to the abdominals and lower body throughout the extended recovery period (typically 2 - 8 weeks post-op). Also ideal for post natal compression. Featuring a convenient open crotch design, a front reinforcement panel, a 2" waistband and decorative lace leg cuffs, these girdles easily pull on, as they have no hook & eye or zippers. Made with our SuperSilky fabric. Closed crotches available by request.

Brazilian Butt Lifts

SC-295

**SC-290 Brazilian Above the Knee Body Shaper**  
**SC-295 Brazilian Below the Knee Body Shaper**

Ideal for use following butt implants, natural fat transfer and Brazilian Butt Lifts, these garments offer full body compression, with built-in relief to the buttocks. Designed using Body Scan technology, gluteal cutouts made with loose stitching are in place to ensure there is no compression or collapse of the implantation/surgical area. The “loose stitch” around the cutouts helps the garment to easily contour with the patient and not leave indentations. Features include a built-in bra with adjustable shoulder straps and hook & eye closure beneath a single, side zipper for easy application.

**SC-290 Sizes: XS - 3X      Color: Black**

**SC-295 Sizes: XS - 2X      Color: Black**

SC-290

**SC-320 Brazilian High Back Above the Knee Girdle**  
**SC-325 Brazilian High Back Below the Knee Girdle**

Featuring an open bust and adjustable hook & eye front closure, these garments offer full-body support following Brazilian Butt Lifts, fat transfer and grafting, abdominoplasty procedures and liposuction of the abdomen, back and lower body. Thigh reinforcement panels help lift the buttocks and lightweight, non-compressive cotton gluteal insets help ensure there is no collapse or heightened compression of the gluteal area. Additional features include adjustable shoulder straps and an open crotch for added convenience and accessibility. Made with Sateen fabric.

**Sizes: XS - 2X    Color: Black**

SC-330

### SC-330 Brazilian Above the Knee Body Shaper with Hip Relief

Designed by a leading female cosmetic surgeon, the SC-330 is the ultimate garment for Brazilian Butt Lift and fat transfer procedures. Features an exaggerated, cinched-in waist with full abdominal compression for an hourglass figure. Lightweight fabric over the hips, buttocks and thighs allows for fat to be transferred to all areas of the hips and buttocks without any indentations. The SC-330 has an open crotch for patient convenience. Features hook & eye beneath a single front zipper closure for easy application and adjustable shoulder straps.

**Sizes: XS - 2X Color: Black**

SC-29

### SC-29 Stage 2 Brazilian Mid Thigh Girdle

Designed for extended recovery following Brazilian Butt Lift procedures, as well as natural fat transfer and augmentation of the buttocks. The Stage 2 Brazilian Mid Thigh Girdle easily pulls on and provides full compression to the areas used for fat grafting. Features gluteal cutouts to alleviate compression to the augmentation site and an open crotch. A reinforced upper thigh helps lift the buttocks and an abdominal panel provides added compression. Stitching around the gluteal cutout is intentionally loose so that it can grow with the patient, reducing post-op indentations. Made with our ultra-soft SuperSilky fabric.

**Sizes: XS - 2X Color: Black**

1.877.411.7009 | [www.medicointernational.com](http://www.medicointernational.com)

### SC-32 Stage 2 Brazilian High Back Mid Thigh Girdle

Made from our SuperSilky fabric, this mid thigh garment features a cotton gluteal backing to ensure the right amount of coverage and ongoing compression is applied during the extended post-op recovery period. The design of the SC-32 prevents indentations and allows for more flexibility where the fat is placed. Features an open bust, adjustable shoulder straps with two front attachment options and an open crotch. These girdles are easy to pull on, for they have no hook & eye or zippers. Ideal for use following Brazilian Butt Lifts, butt augmentations and fat transfer procedures.

**Sizes: XS - 2X Color: Black**

T-350

### T-350 Cotton Sports Bra with Hook & Eye

Designed for use following a variety of breast procedures. Features a double-ply, universal cup design in an incredibly soft, jersey knit cotton blend to provide lightweight, comfortable support. The bottom elastic band is wrapped in cotton for added comfort and support. Front hook & eye closure for easy application.

Sizes: 32 - 48 Color: White, Black

**T-340 Adjustable Slide Strap Bra**  
**T-345 Adjustable Velcro® Strap Bra**

Ideal for use following breast reduction and reconstruction. Made with a durable, soft-stretch spandex fabric for a comfortable, satin-like feel. The Adjustable Slide Strap Bra (T-340) features adjustable slide shoulder straps with a "Z" hook design. The Adjustable Velcro® Strap Bra (T-345) has velcro shoulder straps. Both offer easy post-operative breast inspection and have adjustable front hook & eye closures and reinforced outside seams.

**Sizes: 32 - 48\* Color: White**

*\*T-345 also available in size 50.*

T-345

T-340

**T-348 Adjustable Velcro® Strap Bra with Molded Cup**

Ideal for use following breast reduction and reconstruction, the T-348 is made with durable, soft-stretch spandex for a comfortable, satin-like feel. Features molded cups that provide even compression and enhanced support. Adjustable Velcro® shoulder straps offer easy post-operative breast inspection. Also features an adjustable front hook & eye closure and reinforced outside seams.

**Sizes: 32 - 50 Color: Black**

SC-400

### SC-400 Cotton Bra with Molded Cup

The SC-400 provides maximum compression and support to the chest. A double-ply, seamless molded cup design and cotton fabric enhance patient comfort. Hook & eye shoulder straps allow for easy post-op inspection and adjustability. Triple row hook & eye front closure delivers added adjustability and an extra-wide bottom band provides stability and additional comfort. Designed with a longer torso fit to avoid interference with incision sites.

Sizes: 2XS - 3X Color: Black

SC-410

### SC-410 SuperSilky Compression Bra

Designed for use following breast reduction, reconstruction and lumpectomies. Made with our breathable SuperSilky material that is self-wicking, antimicrobial and memory resilient - the ultimate in compression. Features a seamless, universal cup design with adjustable hook & eye shoulder straps, adjustable hook & eye front closure and a comfortable, extra-wide bottom band for added support. A double-ply front panel provides added compression and a built-in pouch for prosthetics. The racer back design alleviates shoulder stress, enhances compression and contributes to a more comfortable recovery.

**Sizes: XS - 3X Color: Beige, Black**

## FB-578 Wide Band Universal Surgical Bra

Ideal for immediate use following mastopexy, breast reduction and reconstruction. FB-578 offers maximum support and compression. Made with a soft fabric, adjustable comfort straps that eliminate shoulder irritation and a "Z" hook feature for easy application and post-operative breast inspection. Features front and back hook & eye closure, a built-in prosthetic pouch and an additional extender for the ultimate in adjustability. An extra-wide support band provides added security and comfort.

**Sizes: S - 3X**    **Color: Beige**

SC-475

### SC-475 Sports Bra with Sleeves

Ideal for immediate use following breast augmentation, brachioplasty and liposuction of the arms and upper back. Features a bra made of soft, jersey knit fabric that provides lightweight to moderate support. Also features our SuperSilky fabric on the back and arms to offer uninterrupted compression. Designed with a raglan sleeve to hug the shoulders and a seam on the top of the arm to avoid interference with the surgical site. Front hook & eye closure.

**Sizes: XS - 2X Color: Black, White**

SC-495

### SC-495 Female Bra Vest with Sleeves

Ideal for immediate use following brachioplasty, breast reduction and breast reconstruction. Also ideal for use following liposuction of the axilla, upper back and "bra fat" areas. Made with our ultra-compressive Sateen material that is self-wicking, antimicrobial and memory resilient. Features include a universal cup design, front hook & eye closure and seams on the top of the arm, so as not to disturb the surgical site. Provides full coverage of the axilla, armpit, arms and upper back and extends below the breasts for added support.

**Sizes: S - 2X Color: Black**

### T-1105 Arm Compression Sleeves

Ideal for immediate use following liposuction of the arm and arm lift procedures. Features adjustable hook & eye closure in the back, an open front design and a seam on top of the arm to avoid interference with surgical site. Made with our breathable, self-wicking SuperSilky fabric.

**Sizes: XXS - 3X Color: Beige, Black\***

T-1100

### T-1100 Arm Compression Vest

Ideal for immediate use after brachioplasty, liposuction of the arm, axilla and upper back as well as arm lift procedures. Provides an uninterrupted surface across the back and features two adjustable front straps with Velcro® closure for a secure fit. Made with SuperSilky fabric and designed with a seam on top of the arm to avoid interference with the surgical site.

**Sizes: XS - 3X Color: Beige**

**T-830M Mini Breast Band****T-830W Single Strap Breast Band**

Ideal for use after breast augmentation. Provides downward, stabilizing pressure to prevent implant movement. Features an adjustable Velcro® band lined with a luxurious satin material that attaches to a foam front panel for enhanced patient comfort. Available in a 1.5" width (T-830M) or our standard 3" width (T-830W).

**One Size Fits All    Color: White**

T-830W

T-833

### T-833 Econo Breast Band

Designed to be used alone or with a bra to enhance post-operative results of breast augmentation procedures. Elastic band with Velcro® closure provides downward, stabilizing pressure to prevent implants from shifting upward or to the sides.

**One Size Fits All**

**Color: White**

### FS-404 Two Strap Breast Band

Designed for use after breast augmentation. Upper band provides downward, stabilizing pressure to prevent implants from slipping while the lower band provides support under the breasts. Features two fully adjustable 3" Velcro® bands lined with soft cotton for added comfort.

**One Size Fits All Color: White**

FS-404

D-839

### D-839 Drainage Bulb Holder

Ideal for holding all sizes of suction reservoirs during post-op recovery. Allows patients to be more active and comfortable without the restrictions or irritations associated with traditional securing methods. Accommodates up to four drainage bulbs to help prevent the accidental dislodgement of drainage tubes. Made of plush elastic with Velcro® closure to provide a secure, comfortable fit. Please note, bulbs not included.

**One Size Fits All Color: White**

### SC-150 Male Above the Knee Body Shaper

Made with our compressive Sateen fabric, this garment is ideal for use following gynecomastia, abdominoplasty and liposuction of the full abdomen, back and thighs. This ultra-sleek design features hook & eye beneath one side zipper, adjustable shoulder straps with Velcro® closure, an open crotch, reinforced outside seams and a front reinforcement panel for added abdominal support.

T-875W

T-875-2

**T-875W Universal Facial/Otoplasty Band**

**T-875-2 Universal Facial/Otoplasty Band with 2 Securing Straps**

Ideal for multiple applications. Depending on use, can provide firm support to the forehead and ear area or compression under the chin. This 3" wide soft elastic band features a brushed plush finish for enhanced patient comfort. The band is easy to apply and has Velcro® closure with full adjustability. Also available with two securing straps (T-875-2) that are fully adjustable and removable for added support.

**One Size Fits All Color: White**

**T-850 High Compression Soft Stretch Wrap (with or without gel packs)**

**T-850C High Compression Soft Stretch Wrap with Chin Cup (with or without gel packs)**

Provides compression and hot/cold therapy to the chin, jaw and ear areas. Designed for use following a variety of facial procedures. Features a two-ply, comfortable satin spandex support strap that protects the skin from direct contact with the gel pack. A built-in outer sleeve extends cheekbone to cheekbone and accommodates gel packs for convenient hands-free hot and cold therapy. It is secured by an adjustable Velcro® closure at the top of the head. T-850C features a stabilizing chin cup to reduce slippage. May also be used as a support wrap without gel packs. See page 49 for gel pack details.

*soft-sided cold therapy*

## T-430 Soft-sided Round Gel Pack - 4" Dia. (50/case)

Soft-sided Round Gel Packs are ideal for a variety of cold therapy applications, such as use after injections, blepharoplasty and breast surgeries. These sturdy, reusable gel packs remain flexible when frozen and provide uniform cold therapy. Features one soft-sided surface that shields the skin from direct contact with the frozen pack. Soft-sided Round Gel Packs are convenient, comfortable and economical - the ultimate patient-friendly cold therapy product. Can be customized with your office logo.

**Color: Black Glitter, Cobalt Blue Glitter, Cool Blue, Gold Glitter, Grape, Iridescent Clear Glitter, Kiwi, Mango, Pink Ice, Pink Glitter, Purple Glitter, Silver Glitter, Teal Glitter, Vanilla, White Glitter**

T-440

**T-440 Soft-sided Round Gel Pack - 6" Dia. (25/case)**

Bigger is better with our 6" diameter reusable soft-sided gel pack. Ideal for a variety of cold therapy applications, such as after injections, blepharoplasty and breast surgeries. Remains flexible when frozen. Soft-sided cloth backing provides a barrier between skin and pack.

**Color: Cool Blue, Pink Ice**

**T-445 Hot/Cold Therapy Long Gel Pack 3" x 14" (24/case)**

Go long with our T-445 14" Hot/Cold Therapy Gel Pack. Designed for use with our T-850 jaw wraps to provide full thermal coverage from ear to ear. This sturdy, reusable gel pack remains pliable when fully frozen and can be heated. Frozen pliability allows patients to achieve a better contour to the face, while the ability to use heat therapy allows for more post-operative therapy options. Due to its size, this pack stays hot or cold for extended amounts of time and ensures uniform hot/cold therapy.

**Color: Ocean Blue**

T-445

T-400

T-410

**T-400 Clear Cold Gel Pack - 3" x 5" (50/case)**

**T-410 Clear Cold Gel Pack - 3" x 4" (100/case)**

The T-400 and T-410 Clear Cold Gel Packs are ideal for a variety of cold therapy applications, such as use after injections. These sturdy, reusable packs freeze solid and remain cold for extended periods of time. Can be customized with your office logo.

**Color: Clear**

T-420

**T-420 Blue Hot/Cold Gel Pack - 3"x 6" (48/case)**

The T-420 Blue Hot/Cold Gel Pack offers both hot and cold therapy applications. These sturdy, reusable packs freeze flexible to better contour and are extremely versatile. This gel pack can be used alone or in combination with our patented wraps. Can be customized with your office logo.

**Colors: Black Glitter, Gold Glitter, iridescent Glitter, Ocean Blue, Pink Glitter, Silver Glitter, White Glitter**

T-425

**T-425 Hot/Cold Gel Bead Pack - 3"x 6" (48/case)**

Hot/Cold Gel Bead Packs are sturdy, reusable gel packs that remain pliable when frozen and can also be heated. Frozen pliability allows patients to achieve a better contour to the face, while the use of heat allows for more post-op therapy options. This gel pack can be used alone or in combination with our patented wraps. Can be customized with your office logo.

**Colors: Green Peas, Orange Burst, Pink Pop, Purple Rain**

EM-130-4

T-470

T-480

**EM-130-4 Bleph Eye Mask with 4 Clear Cold Gel Packs (24/case)**

Ideal for use following a variety of procedures to the eye area. Features a soft-spandex pouch that houses the gel packs and protects skin from direct contact. Designed with two gel pack pockets for easy application and an adjustable Velcro® closure for proper sizing. Includes four reusable 3" x 4" gel packs so that patients can freeze two gel packs while using the other two.

**One Size Fits All Color: White**

**T-470 Cloth Holder with 1 Clear Cold Gel Pack (100 holders/100 gel packs)**

**T-480 Cloth Holder with 2 Clear Cold Gel Packs (100 holders/200 gel packs)**

Ideal for a variety of cold therapy applications, such as use after injections or breast surgery. These sturdy, reusable 3"x 4" gel packs freeze solid and remain cold for extended periods of time. The gel pack is housed in a soft brushed poly cloth holder, which allows the therapeutic cold to penetrate while protecting skin from direct contact with the frozen gel pack. Available with one or two gel packs per holder.

By opting for two gel packs, patients can alternate packs between freezings to ensure there is no lapse in recovery. Gel packs and holders can be customized with your office logo.

**Color: White**

CG-100

CC-200

**CC-200 Consultation Camisole**

**CG-100 Consultation Gown**

Elegant consultation gowns that are made of a luxurious, wrinkle-free machine-washable fabric. With a simple neckline closure, they are designed to be completely closed, yet provide easy access for exams and aesthetic procedures such as laser hair removal. Sleek design allows access from both sides of the garment while maintaining patient privacy and dignity. Choose from the knee-length Consultation Gown for full body exams or the waist-length Consultation Camisole for breast and upper body exams.

**One Size Fits Most Color: Black**

# Re|shape

*medical grade liposuction foam*

**SC-810** Sculptures Liposuction Foam® Sheets - 8" x 10.5" sheets (12/case)

**SC-813** Sculptures Liposuction Foam® Roll - 13 ft. roll (21" width)

Sculptures Liposuction Foam® is a lightweight, medical grade polyurethane foam designed to provide smooth padding and even compression for added comfort and contouring. Our ultra-absorbent supersoft foam can be cut to your desired shape and size and then easily inserted between the sterile dressing and compression garment. Available in 8" x 10.5" sheets or in 13 ft. rolls (21" width). Packaged with UV-protected bags for longer shelf life.

## Partners Program

Medico International Inc.<sup>®</sup> offers a Partners Program where your patients can order directly through us. As a Medico Partner, you can direct patients to your exclusive online “Post-Op Recovery Shop” filled with the compression garments and recovery-related products you select. We take care of all the billing and shipping details for the patient so your staff can focus on what they do best. As a thank you for choosing our garments, we will provide you with 20% of the net sales made from your Post-Op Recovery Shop.

## Return Policy

To our valued customer, please note the following in the event that a return is necessary: Medico International Inc. guarantees these items to be free of manufacturing defects that would affect their use and/or durability. Medico International will not accept washed, worn or damaged products for any credit. Upon your request and within 30 days of the invoice date, Customer Care will issue a Return Authorization number to ensure proper credit. A 15% restocking fee will be charged and shipping is non-refundable. Please contact Customer Care for assistance. We appreciate the opportunity to serve you.
